

Aanya Saraswat

New Delhi, India aanya.10june@gmail.com GitHub LinkedIn

Education

Thapar Institute of Engineering and Technology

Patiala, Punjab

B.E. in Electronics and Communication Engineering

Aug 2023 – Aug 2027

CGPA: 9.01

Experience

Customer Success Engineering Intern

IBM, Gurugram, India

Jun 2026 – Present

- Worked with IBM Concert to analyze enterprise application observability, dependency mapping, and operational health across hybrid cloud environments.
- Learned Docker, Kubernetes, and Red Hat OpenShift fundamentals for containerized application deployment and orchestration.
- Studied enterprise application modernization, vulnerability management, and deployment practices through IBM Concert use cases and technical demonstrations.

Marketing Intern

Auraflo, Patiala, India

Mar 2025 – Sep 2025

- Conducted market research and competitor analysis for Auraflo's smart yoga mat.
- Assisted with digital campaigns, social media, and content creation to improve brand visibility.
- Supported promotional material preparation and cross-team coordination.

Projects

COPD Prediction using ML

Python, TensorFlow, Keras, Librosa, NumPy

GitHub

- Built a hybrid CNN-LSTM-GRU model to classify respiratory diseases from audio signals.
- Created an audio preprocessing pipeline with Librosa and NumPy for MFCC and spectral feature extraction.
- Used Adamax, EarlyStopping, and ModelCheckpoint to improve training and reduce overfitting.

InvestWallet

Next.js, TypeScript, PostgreSQL, Prisma, NextAuth, Firebase

- Built a smart savings-to-investment platform with simulated cashback routing and paper trading.
- Implemented secure onboarding, wallet tracking, and transaction history with allocation limits.
- Created dashboards with technical indicators, backtesting reports, and portfolio analytics.

Mock Interview WebApp

Next.js, FastAPI, PostgreSQL, Gemini, Firebase

- Built a personalized interview preparation platform that analyzes uploaded resumes and generates role-specific questions.
- Implemented answer submission, AI-based scoring, and feedback reports with improvement roadmaps.
- Designed a modular workflow with authentication, interview history, and secure storage for resumes and responses.

Technical Skills

Programming Languages: C, C++, Python, JavaScript, SQL

Backend Development: Flask, Node.js, Express.js, REST APIs, JWT Authentication, API Design

Frontend: React.js, Tailwind CSS, HTML5, CSS3

Cloud & DevOps: Docker, Kubernetes, Red Hat OpenShift, AWS S3, Git, GitHub Actions

Databases: MySQL, MongoDB, Firebase

Machine Learning & Data: TensorFlow, OpenCV, CNNs, Pandas, NumPy

Core Computer Science: DSA - 250+ Leetcode, OOPS, DBMS, Operating Systems, Computer Networks

Position of Responsibility

Web Development Mentor, IETE

May 2024 – May 2025

- Led 10+ technical events for 500+ students and mentored them in web development, project building, and problem-solving.

Student Placement Representative

August 2025 – Present

- Coordinated communication between students, recruiters, and the placement cell.
- Supported placement drives, candidate tracking and helped ensure smooth execution of recruitment activities.

Certifications

- Concert: Technical Overview, IBM Training, Jun 2026
- Introduction to Containers, AWS Training & Certification, Jul 2026
- Introduction to Serverless Development, AWS Training & Certification, Jul 2026
- Advanced Software Engineering Job Simulation, Forage, Jul 2025
- Finalists in India-Israel Hackathon, Sept 2025
